Rapid Glue & Staple Guns Staple Guns

Staple guns are very useful when stretching materials as they provide the 'third hand' needed to complete this three-handed job. We offer the Rapid range of staple guns. The R14E and R34E are heavy-duty guns that use a heavy gauge staple type. The R14E accommodates 6-8 mm staples. The R34E accommodates leg lengths to 14 mm. We supply 6 to 14 mm galvanised staples from stock and can offer others to order. The R53E is a lighter duty gun, which uses lighter gauge staples of 6 and 8 mm. We also offer Monel rustless staples.

Glue Guns

Glue Guns use glue sticks which are heated when passed through the gun. When applied the glue dries quickly and forms an almost instant bond. Use to stick a wide variety of materials together in a very short time. Fast and strong. EG106 is for light use with smaller diameter glue sticks. Glue sticks are multi purpose and will stick most materials and dry clear. Other specialist glue sticks are available to order.
