### Plasti-Kote Aerosol Sprays

The range of Plasti-Kote aerosols that we offer can be used generally in decorative and craft projects on a range of surfaces.

#### Fast Dry Enamel Spray

Plasti-Kote Fast Dry Enamel's superior quality paints come in handy bottles or sprays and are ideal for small project or craft uses. Fast Dry Enamels are non-fading, longer lasting paints which are safe to use on children's toys and furniture. Available in 31 superb colours, easy to use and with minimal wastage -you'll find that Fast Dry Enamels give you a perfect finish with minimum fuss and bother. All you need to do is prepare and clean the surface and then simply brush or spray on.

#### Polyurethane Varnish

Available in Gloss and Satin finishes, Polyurethane Varnish provides a tough and durable coating to wooden surfaces that protects against scratches and stains.

#### Fluorescent Spray

Plasti-Kote Fluorescents ensure instant visibility and are ideal for identification and safety as well as decorative and craft projects. They can be used on both interior and exterior surfaces and on a wide range of materials.

#### Metallic Spray

For an ultra modern reflective metallic finish on virtually any surface, Plasti-Kote Brilliant Metallic is the answer. For decorative projects around the home choose from the range of gold, silver or copper reflective colours. In cases of handling or contact with other objects, use Plasti-Kote Clear Sealer or Clear Acrylic for added protection.

#### Super Enamels

Plasti-Kote Super Spray Paint is simply the finest multi-purpose spray paint available. Super comes in a range of finishes to suit your chosen application. It is tough, hard wearing, resistant to scratches and can be re-coated anytime. Super Spray Paint will not fade or yellow, it protects against rust and is fast drying. Add to this that it comes in gloss, matt and satin finishes with the addition of 4 primers and a top coat - you have a range of products suitable for any decorative project inside or outside of the home.

#### Primers

Quick and easy to use. Fast drying. Fights rust. Heat resistant up to 150°C. Offers the ultimate metal protection with a non-sanding formula for areas of moderate corrosion. For protection from severe corrosion use Zinc Primer that actually fuses to the surface it is applied to.

## Aerosols

### Plasti-Kote Sprays

#### Spray Adhesive

Repositionable. This lightweight adhesive is ideal when you want a light or temporary bond and will not damage the surface— for example a stamp or photograph.

Permanent. A medium weight multi purpose product suitable for hobby and small DIY projects in the home.

Heavy Duty. A heavy duty product with superior adhesive strength. Ideal for volume application tasks such as laying carpet tiles. You'll find spraying is a simple and quick solution for high coverage areas.

**£ Ex £ Inc**

#### Spray Adhesive

Repositionable 200 ml	4.83	5.80
Repositionable 400 ml	6.67	8.00
Permanent 200 ml	4.83	5.80

#### Can Gun

Trigger gun attachment for aerosol cans.

Can Gun	2.98	3.58
---------	------	------

### Other Aerosol Sprays

#### Kolsnow Melting Spray

Falling and melting snow effect for winter scenes on set, photographic studio, etc.

#### Snoscene Artificial Snow Lasting

Excellent realistic semi permanent snow effect for windows, winter scenes and mirrors. Flame resistant.

#### Artificial Frost Crystal Spray

Magical fern-like frost patterns from a spray can for windows, mirrors and other reflective surfaces. Flame resistant effect. Will not work on cold glass.

#### Cobweb Spinner

Special drill bit which is compatible with any multi-head or chuck drill. Use with cobweb solution to produce realistic cobweb effects. Best cleaned and maintained with cobweb cleaner.

#### Cobweb Solution

Produces very realistic simulation of cobwebs for special effects in theatre, film, video and photography. The product performs to a high standard both in studio environments and out on location. Cobwebs will remain intact for extended periods. We have achieved particularly outstanding results with the use of scaffold thread. For use with cobweb spinner.

#### Cobweb Cleaner

Solution for cleaning and maintaining cobweb spinner.

## Montana Gold Aerosol Sprays

**Montana GOLD** has been reformulated with additional acrylic polymer make the final paint film more flexible. We stock 49 out of the 91 available colours.

Compared to conventional spray cans, Montana Gold covers twice the area.

There is virtually no overspray, and it's practically odour-free.

The paint provides extraordinary opacity and dries quickly.

**Montana Nozzle**

how to use Montana gold :

- 1) shake the can for 1-2 minutes
- 2) remove the safety ring under the cap
- 3) choose the spray-cap
- 4) test spray away from object

Montana Gold contains:

high covering, quick drying special nitro-combi silk lacquer for interior and exterior use.
